

# The Future Runs on Electrada Electric Fuel

You Choose. We Fuel. You Go.

## Seamlessly Transition Your Fleet to Electric Fuel.

Electrada Electric Fuel is a suite of flexible, fully managed electrification solutions tailored to the unique operational and financial needs of public and private fleets. Whether you're just starting or already electrified, Electrada delivers proven results with performance guarantees, no capital risk, and cost certainty—so you can fuel the future without slowing down.

### KEY ADVANTAGES

#### Predictable Pricing

One fixed electric fuel cost for the life of your contract.

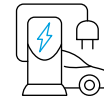

#### Complete Scalability

Solutions that expand seamlessly with your fleet.

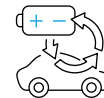

#### Zero Operational Headaches

We expertly manage the infrastructure. You run your fleet.

#### Guaranteed 99%+ Uptime

Our industry-leading SLA mitigates unreliable equipment risks.

#### Battery-as-a-Service (BaaS)

Full lifecycle battery financing and management.

OPTIONAL ADD-ON

## Three Models. One Performance Standard.

### 360 CaaS

#### We Build. We Own. We Manage.

Fully managed electrification with zero capital investment.

##### Features:

- 100% capitalized (zero upfront costs)
- Guaranteed 99%+ uptime
- Predictable, fixed pricing
- Electrada's expert infrastructure management

**Perfect for:** Public and private fleets seeking a zero CapEx complete electric fuel solution with maximum simplicity and contractually guaranteed performance.

### Fleet Flex

#### We Build. You Own. We Manage.

Maintain ownership, eliminate operational complexity.

##### Features:

- Maintain ownership of EV assets
- Guaranteed 99%+ uptime
- Predictable, fixed pricing
- Electrada's expert infrastructure management

**Perfect for:** Organizations that want to retain ownership of infrastructure while outsourcing the operational responsibility to Electrada with contractually guaranteed performance and reliability.

### Fleet Flip

#### We Buy. We Own. We Manage.

Turn existing infrastructure into immediate capital.

##### Features:

- Immediate asset monetization at fair market value
- Seamless integration and scalability, with guaranteed 99%+ uptime
- Predictable, fixed pricing
- Electrada's expert infrastructure management

**Perfect for:** Fleets that have already invested in EV charging infrastructure but would like capital recovery while outsourcing the operational responsibility to Electrada with contractually guaranteed performance and reliability.

The Future Runs on Electric Fuel

# Which Electrada Electric Fuel Model Is Right for Your Fleet?

| Feature                         | 360 CaaS                               | Fleet Flex                                     | Fleet Flip                                   |
|---------------------------------|--|--|--|
| Infrastructure Ownership        | Electrada                              | Customer                                       | Electrada                                    |
| Capital Investment              | \$0                                    | Customer-owned                                 | Asset monetization                           |
| Operations & Maintenance        | Electrada                              | Electrada                                      | Electrada                                    |
| Risk Management                 | Electrada                              | Electrada                                      | Electrada                                    |
| Predictable Electric Fuel Price | ✓                                      | ✓  | ✓  |
| 99%+ Uptime Guarantee           | ✓                                      | ✓  | ✓  |
| Scalability                     | Fully scalable                         | Fully scalable                                 | Custom scalability                           |
| Monetizes Existing Assets       | —                                      | —  | ✓  |
| Ideal For                       | Zero capex, end-to-end electrification | Fleet-owned assets, fully managed by Electrada | Capital recovery, fully managed by Electrada |

## You Have Questions? Electrada Has Answers.

100% FLEXIBLE

99%+ GUARANTEED  
UPTIME

PREDICTABLE,  
FIXED PRICING

ZERO OPERATIONAL  
HEADACHES

### How does Electrada guarantee uptime?

We combine proactive maintenance, remote monitoring, and industry-leading SLAs to guarantee 99%+ uptime backed by 24/7/365 support.

### What's the difference between the Electrada Electric Fuel service models?

It's all about ownership and capitalization. Electrada can fully fund and manage your infrastructure (360 CaaS), manage your owned assets (FleetFlex), or buy and optimize your existing infrastructure (FleetFlip). All models are scalable, fully managed, guarantee 99%+ uptime, and offer predictable pricing for the life of the contract.

### How are electric fuel prices structured?

One fixed price per kWh throughout your contract. No volatility. No surprises.
